

HEALING FOR YOUR WELL BEING!

The mission of Life Esteem is to raise our consciousness, awaken our intuition, and live a meaningful life and existence.

Life Esteem embraces the human spirit, through self-discovery, personal transformation, and healing.

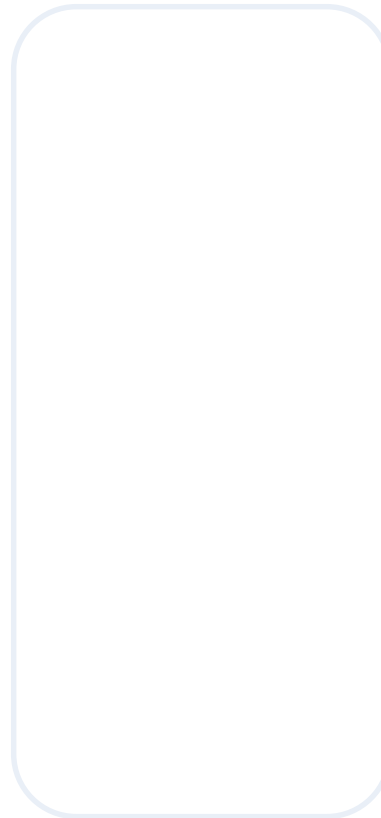

The Life Esteem Wellness Center applies the **Domančić Method of Bioenergy Therapy**. It stimulates your bioenergy field, known as your body's energy system. Your bioenergy field contains the information of well-being within you.

Bioenergy Therapy is safe, non-invasive, and free of pharmaceuticals. It's a way of balancing your body's energy system to promote healing.

The Domančić practitioner uses specific protocols to **help you focus on your wellness**.

**Bioenergy Therapy is not a replacement for medical treatment.*

Bioenergy Therapy

Bioenergy Therapy uses life sustaining energy of the Universe, sometimes called Prana, Qi, life energy, electromagnetic field, etc. It balances our energy body by stimulating our immune system so the body can heal.

Internal and external stimuli have frequencies that influence our bioenergy field. They affect our emotional, mental, and physical states.

Energy imbalances first appear in the bioenergy field and can later develop as a health problem in the physical body. Your thoughts of feeling stressed, physical emotional trauma, and a bad environment can create imbalances in your energy body.

The Domancic Method assists you in adjusting and balancing your bioenergy field (energy body) to jump-start your natural healing process, restoring your body's original state of being.
